09.30 - 11.00 (90 mins)	<b>Panel discussion: Innovation in the LPG industry</b>  How the IoT can make a significant contribution to good industry practices and at the same time make LPG more accessible to low income households.  <b>Moderator:</b> David Tyler, <i>Director, WLPGA</i>  <b>Panelists:</b> <ul style="list-style-type: none"><li>• Harish Anchan, <i>Managing Director, Asia, Envirofit</i></li><li>• Andre Pimentel, <i>Head of Sales and Marketing, Intelligent Sensing Anywhere, ISA</i></li><li>• Naweed Rashid, <i>G-Gas Head, Energypac Power Generation</i></li><li>• Manuel Sguazzi, <i>Managing Director, Cavagna Group, Asia</i></li></ul>	14.00 - 16.30 (120 mins)	<b>WLPGA Good Industry Practices workshop</b>  <b>Moderator:</b> David Tyler, <i>Director, WLPGA</i>
11.00 - 11.30	Tea break at the exhibition	16.30 - 17.00	Tea break at the exhibition
11:30 - 13.00	<b>Panel discussion: Natural gas - friend or enemy?</b>  LPG has stepped in to bridge the CNG gap in Bangladesh. Following tremendous investment in storage, handling and distribution facilities, LPG has already penetrated the transport and residential sectors. Small bulk LPG systems supplying industry, commerce and the residential sectors is one opportunity. Powergen and marine are also exciting new sectors. Is Natural Gas seen as an enemy to LPG or can they work together? The panel of experts will debate this intriguing question.  <b>Moderator:</b> David Tyler, <i>Director, WLPGA</i>  <b>Panelists:</b> <ul style="list-style-type: none"><li>• James Lye Cheng Weng, <i>NGL Analyst, Facts Global Energy (FGE)</i></li><li>• Thomas Bourliere, <i>Business Development Manager, LNG Solutions – Asia Middle East, Wärtsilä</i></li><li>• Mohammed Saidul Islam, <i>Director &amp; CEO, LAUGFS Gas</i></li><li>• H.
