Sirimavo Bandaranaike Memorial Exhibition Centre

17th NOVEMBER 2014 | COOKING FOR LIFE!

COOKING FOR LIFE is a 5-year global campaign of the World LP Gas Association (WLPGA) to reduce death and illness caused by traditional yet harmful cooking fuels used by millions worldwide. It introduces LP Gas as a clean and safe alternative for cooking in developing countries. The campaign convenes governments, public health officials, the energy industry and global NGOs to expand access to LP Gas and bring this modern alternative to the people who need it most. We also work to increase public awareness about how traditional fuels negatively affect everyday life among the world's most vulnerable.

COOKING FOR LIFE puts the necessary tools and resources for success in the hands of energy policy decision makers in developing countries. India, Brazil and Indonesia are shining examples of successful countrywide conversion to LP Gas, proving that large-scale adoption is possible. The campaign arms leaders in other countries with the best practices and lessons for implementing successful LP Gas conversion programmes.

17th NOVEMBER 2014 | WLPGA ASIA AUTO GAS SUMMIT

WLPGA ASIA AUTO GAS SUMMIT is a programme of the World LP Gas Association (WLPGA) to promote the use of LPG Autogas as an alternative fuel for transportation. Worldwide, emissions from diesel engines kill over 10 million people a year prematurely, and LPG Autogas is a clean burning alternative that doesn't have the carcinogenic emissions that diesel fuel has. AUTOGAS: An Exceptional Opportunity for Asia convenes governments, public health officials, the energy industry, the transport industry and global NGOs to expand access to LP Gas as a transportation fuel and educate fleet owners and vehicle users of the need to switch.

18th NOVEMBER 2014 | HOUSEHOLD AIR POLLUTION

With over 7 mio deaths every year, air pollution - both ambient and household air pollution - is currently the world's largest single environmental health risk. According to latest figures from WHO, air pollution in households alone cause 4.3 million deaths in 2012. South East Asian and Western Pacific regions bear most of the burden with 1.69 and 1.62 deaths, respectively.

Against this background household air pollution (HAP) should figure prominently during the next BAQ, not only as a major health risk but also as a harmful factor for outdoor air quality. A one day side event on discussing the causes and effects of HAP as well as the solutions should allow the region to better face the challenges of this enormous problem of air quality.

19th - 21st NOVEMBER 2014 | INTEGRATED CONFERENCE OF BAQ 2014 AND INTERGOVERNMENTAL 8TH REGIONAL EST FORUM IN ASIA"

"Integrated Conference of BAQ 2014 and Intergovernmental 8th Regional EST Forum in Asia"

The "Integrated Conference of BAQ 2014 and Intergovernmental 8th Regional EST Forum in Asia" co-organized by the Ministry of Transport of Sri Lanka, The Ministry of Environment and Renewable Energy of Sri Lanka, Ministry of the Environment of Japan, United Nations Centre for Regional Development, and Clean Air Asia, in partnership with the Asian Development Bank, German International Cooperation (GIZ), and World Bank.

The theme of the Integrated Conference is "Next Generation Solutions for Clean Air and Sustainable Transport – Towards a Livable Society in Asia"

Recognizing that clean air and sustainable transport are essential to a livable society in Asia, we call for innovative and smart solutions (policy, institution, technology and financing) that significantly reduce air pollution and greenhouse gases from energy, industry, transport, and area sources, and ensure a safe, equitable, environment and people-friendly transport system by accelerating the shift towards more environmentally sustainable transport (EST) in Asian cities and countries.

EXCEPTIONAL OPPORTUNITIES
FOR LP GAS IN ASIA

**ASIA AUTOGAS SUMMIT
& COOKING FOR LIFE!**
17th NOVEMBER 2014

08.00 – 09.00 Registration

09.00 – 09.15 Welcome, Opening Remarks

What is the state of the air quality in Asia's major cities? What are the health and environmental costs of air pollution, and what can be done about it? What role does LP Gas have as an alternative to traditional transport fuels?

- ◆ Introduction, David Tyler, **WLPGA**
- ◆ Opening Address, Bjarne Pederson, *Executive Director, CAI - Asia*

09.15 – 10.45 Autogas in Asia – The Story

LP Gas has been successfully used as a transport fuel in Asia for over 50 years. Taxis in South Korea, Japan, Australia and Hong Kong have led the way. Now two and three wheelers in India and Thailand have taken up this exceptional transport fuel to reduce street air pollution. What were the key reasons for this? What were the major challenges? Why has Autogas emerged to become one of the best options for improving street air quality in major cities? Hear from the policy makers and the law enforcement bodies in the region. Hear from the designers and operators of Autogas stations in the region. Hear also from other stakeholders in the Autogas business and see how it was achieved. Discuss the challenges they were faced with and see how the lessons can be applied elsewhere.

- ◆ Mr Kang, **South Korean LP Gas Association**, South Korea - TBC
- ◆ Makoto Arahata, **LP Gas Consultant**, Japan - TBC
- ◆ Saidal Islam, **Petredec**, Bangladesh – TBC
- ◆ Wega, **Laugfs Gas**, Sri Lanka - TBC
- ◆ Representative from the Sri Lankan Government

Moderator
Nick Black, **Argus Media**

10.45 – 11.15 Coffee Break

11.15 – 12.30 Autogas – A Game Changer for Urban City Street Air Quality

Autogas presents exceptional qualities as a clean alternative to traditional transport fuels such as gasoline and diesel. With WHO in June 2012 announcing that diesel exhaust is carcinogenic to humans the argument for Autogas to displace diesel in urban cities is compelling. In this round table discussion hear from one of the world's renowned scientists argue the case for Autogas. Hear also from other experts in the field argue the case for Autogas against the background of the need for cleaner cities.

- ◆ Eric Johnson, **Atlantic Consulting**, Switzerland
- ◆ Warring Neilsen, **Gas Energy Australia**, Australia
- ◆ Representative from the Sri Lankan Government

ASIA AUTOGAS SUMMIT & COOKING FOR LIFE!

17th NOVEMBER 2014

12.30 – 13.30 Lunch

13.30 – 13.45 **Keynote:** Dr Kirk Smith, **University of Berkeley, USA** (invited)

13.45 – 15.00 **Clearing the air: Addressing Challenges In the Clean Cooking Energy Sector**

Three billion people rely on "traditional fuels" - wood, coal, charcoal or animal waste - for cooking on antiquated stoves or open fires. Most of these people live in Asia. Exposure to household air pollution (HAP) from cooking this way causes the deaths of more than four million people annually, countless other preventable illnesses as well as causing severe environmental impacts. The LPG industry has responded with its programme Cooking for Life that aims to convert 1 billion people to using clean burning LPG by 2030. Find out what other programmes exist in Asia addressing this problem? What are other industries doing and how can the global community get involved?

- Michael Kelly, **World LP Gas Association**
- Eric Johnson, **Atlantic Consulting**, Switzerland
- Monica, **GIZ**, Germany
- Elisa Pullozzo, **Global LPG Partnership**, USA

Moderator
Nick Black, **Argus Media**

15.00 – 15.30 Coffee Break

15.30 – 17.00 **What Is the Future of Clean Cooking In Asia?**

This round table session will explore what projects exist and what policies are being implemented to clear the air in Asian homes and Asian cities. The discussion will look at a variety of solutions and policies that can help improve the quality of life for a new generation of Asians.

- Representative from the **Sri Lankan Government**
- Representative from **Litro Gas**, Sri Lanka
- Representative of the **Global Alliance for Clean Cookstoves**
- Mr Dakwale, **Indian Oil Corporation Sri Lanka**, Sri Lanka

Moderator
Nick Black, **Argus Media**

Terms & Conditions:

1. Payment Terms

Full payment upon receipt of invoice. AEG reserves the right to cancel and relocate all bookings not complying with the payment terms.

2. Alteration to Event

AEG reserve the right to make such changes to the time, schedule, location, presenters or in the general plan of the event without penalty, as may be deemed necessary by AEG management, to be in the best interest of the event.

3. Cancellation of Event

Should the event be cancelled due to war, acts of terrorism and/or natural calamities, AEG shall be under no liability in any way in respect of any liability incurred by the sponsor/exhibitor. Participant will receive a full credit for the entire amount paid towards a future event taking place within one year.

4. Cancellation of Sponsorship/Exhibition

a. If the sponsor/exhibitor cancels by providing AEG with written notice, no monies will be refunded and the Sponsor/Exhibitor/Marketing Partner is liable to pay the full amount of the package to AEG within five (5) working days of the cancellation notice if payment has not been made.

b. If AEG cancels the event/sponsorship/exhibition/marketing package for any reason apart from those covered by Clause 3, the sponsor/ exhibitor/ marketing package will be refunded in full within fourteen (14) days for any payments already made for sponsorship/exhibit on that event.

c. If AEG cancels a scheduled event/sponsorship/exhibition due to the failure on the part of

the sponsor/exhibitor to comply with payment term in Clause 2, the sponsor/exhibitor/marketing partner is liable to a fifty (50%) percent cancellation charges to be made payable to AEG within five (5) days of the cancellation notice.

5. Liability

AEG accepts no responsibility for any loss or damage to properties or personal injuries that occurs during, or in preparation for, the event.

In making arrangements with third parties for carriage by air, hotel, accommodation, transportation, or other services, for purposes related to the event/sponsorship/exhibition on behalf of the sponsor/exhibitor, AEG is protected from liability of any kind arising out of such arrangements.

6. Number of Delegates

AEG undertakes to extensively research and market each event but are unable to guarantee the number of delegates or their purchasing power or level of responsibility. Estimates made or given whether in publicity material about the event by or on behalf of AEG whether verbally or in writing shall not be constituted as a guarantee and is not incorporated or become part of the Agreement unless the estimate is contained in the amendment part of the Agreement and countersigned by a Director.

7. Extra charges

Any additional charges incurred at the event, which are not covered by the package, shall be borne by the sponsor/exhibitor. Any additional charges incurred at the event by the sponsor/exhibitor, which are billed to AEG are payable to AEG within five (5) working days of receipt of invoice.
